To Whom it may Concern

I wish to have it noted that my Body Corporate fees have recently risen well beyond what I would consider to be reasonable due to the huge increase in insurance premiums.

It has made a significant difference to my cost of living, and was not something that I could have foreseen four years ago when I purchased my unit. I would lose a lot of money if I was to try and sell in current climate, and would not be able to recoup the cost if I were to try to rent my unit out.

I would support any movemet to recitfy this injustice

kind regards

Bernadette Tooman
