Transport and the Arts

Submission No: 199

Date Received: 20/11/00

Secretary: Janet Holmes

Dear Sir or Madam,

As a rural dweller without a car & spending a great deal of time at home I am completely dependent upon the A.B.C. for good news & community programmes, interviews & particularly good music from Classic F.M. The reduction of any of these services is disastrous for those of us who, even moving away from the city, knew we were giving up stimulating cultural activities, music, lectures, discussions etc. but we thought "At least we have the A.B.C."

So please restore the stolen
funds & understand that we,
country dwellers need & will
appreciate better & better quality
from our precious A.B.C.

Yours sincerely

Pamela Di Giulio
