Subject: Referendum process

Dear Sir,

I wish to make a submission to this process or inquiry.

I am very happy with the present provisions for presenting the YES/NO case in a Referendum. I believe that it is valuable to those considering how to vote. I read and thought about the issues before the 1999 Referendum seeking to make Australia a Republic. On that occasion the process worked well and I certainly do not wish to see it changed in any way.

Yours sincerely,

(Reverend) ROBERT WILLSON
