# Introduction

The Senate Standing Committee on Regulations and Ordinances was established in 1932. The committee's name was changed on 4 December 2019 to the Senate Standing Committee for the Scrutiny of Delegated Legislation.<sup>1</sup> The role of the committee is to examine the technical qualities of all legislative instruments subject to disallowance, disapproval or affirmative resolution of the Senate, and to decide whether they comply with the committee's non-partisan scrutiny principles.

## Terms of reference

Prior to 4 December 2019, Senate standing order 23(3) required the committee to scrutinise each instrument referred to it to ensure:

- (a) that it is in accordance with the statute;
- (b) that it does not trespass unduly on personal rights and liberties;
- (c) that it does not unduly make the rights and liberties of citizens dependent upon administrative decisions which are not subject to review of their merits by a judicial or other independent tribunal; and
- (d) that it does not contain matter more appropriate for parliamentary enactment.

The instruments recorded in *Delegated Legislation Monitor 1 of 2020* were registered on the Federal Register of Legislation before 4 December 2019. Consequently, the committee has scrutinised these instruments in accordance with the above scrutiny principles.

## Nature of the committee's scrutiny

The committee's work may be broadly described as technical legislative scrutiny. In this regard, the committee does not examine the policy merits of delegated legislation.

Where an instrument does not appear to comply with the committee's technical scrutiny principles, the committee's usual approach is to correspond with the responsible minister or relevant agency to seek further explanation or clarification of the matter at issue. The committee may also seek an undertaking for specific action to address its concerns.

---

1 On 27 November 2019, the Senate agreed to amend standing orders 23 and 25(2)(a), with effect from 4 December 2019. For further information, see [https://www.aph.gov.au/Parliamentary\\_Business/Committees/Senate/Scrutiny\\_of\\_Delegated\\_Legislation/Changes\\_to\\_committee\\_standing\\_orders](https://www.aph.gov.au/Parliamentary_Business/Committees/Senate/Scrutiny_of_Delegated_Legislation/Changes_to_committee_standing_orders).

The committee's work is supported by the processes for the registration, tabling and disallowance of legislative instruments under the *Legislation Act 2003*.<sup>2</sup>

## **Publications**

The committee's usual practice is to table a report, the *Delegated Legislation Monitor*, each Senate sitting week. The monitor provides an overview of the committee's scrutiny of disallowable legislative instruments for the preceding period. Disallowable legislative instruments detailed in the monitor are also listed in the 'Index of instruments' on the committee's website.<sup>3</sup>

## **Ministerial correspondence**

The committee undertakes formal correspondence with ministers in order to resolve more significant scrutiny concerns. Ministerial correspondence is published on the committee's website.<sup>4</sup>

## **Agency correspondence**

The committee undertakes informal correspondence with agencies via its secretariat to gather information about potential scrutiny concerns. This correspondence assists the committee in deciding whether it is necessary to seek further advice from the relevant minister about those concerns. Agency correspondence is not published; however, a record of the instrument, scrutiny issue and status of the correspondence is included in Appendix A (ongoing matters) and Appendix B (concluded matters) in the monitor.

## **Guidelines**

Guidelines relating to the committee's scrutiny principles are published on the committee's website.<sup>5</sup>

## **General information**

The Federal Register of Legislation should be consulted for the text of instruments, explanatory statements, and associated information.<sup>6</sup>

The Senate Disallowable Instruments List provides a listing of tabled instruments for which disallowance motions may be moved in the Senate.<sup>7</sup>

The Disallowance Alert records all notices of motion for the disallowance of instruments, and their progress and eventual outcome.<sup>8</sup>

### **Instruments considered in this monitor**

The committee examined 50 disallowable legislative instruments registered on the Federal Register of Legislation between 21 November 2019 and 3 December 2019.

This monitor identifies the instruments registered in this period about which the committee has or had scrutiny concerns. It also identifies instruments registered before this period in relation to which the committee is continuing to engage with the relevant minister or agency, or has concluded its examination.

# Chapter 1

## Instruments raising significant scrutiny concerns

1.1 This chapter details the instruments in relation to which the committee holds the most significant scrutiny concerns. For such instruments the committee places a notice of motion to disallow the instrument to emphasise its scrutiny concerns and to provide the Senate with additional time to consider the instrument with the benefit of the committee's comments. Where appropriate, this chapter also details the committee's reasons for withdrawing notices of motion to disallow such instruments.

1.2 The committee is currently seeking to resolve all outstanding scrutiny concerns by correspondence with the relevant minister or agency. Copies of any relevant correspondence are available on the committee's website.<sup>1</sup>

## Chapter 2

### Scrutiny of Commonwealth expenditure

2.1 The *Financial Framework (Supplementary Powers) Act 1997* (FF(SP) Act) and the *Industry Research and Development Act 1986* (Industry Act) authorise the Commonwealth to spend public money on grants and programs specified in instruments made under those Acts. Consequently, the specification of expenditure in an instrument made under these Acts effectively authorises the Commonwealth to spend public moneys on the relevant grant or program. The scrutiny of such instruments is a key aspect of parliamentary scrutiny and control of Commonwealth expenditure.<sup>1</sup>

2.2 To facilitate such scrutiny, this chapter draws the Senate's attention to the nature and extent of Commonwealth expenditure that is authorised by the FF(SP) Act and the Industry Act and the delegated legislation made under those Acts.

2.3 The table below list the grants and programs specified in instruments registered between 21 November and 3 December 2019. The information in the table has been sourced from the instrument and explanatory statement.

Instrument	Grant/Program	Description	Amount
<b>Financial Framework (Supplementary Powers) Amendment (Education Measures No. 4) Regulations 2019 [F2019L01536]</b>	Grants to General Sir John Monash Foundation to administer the Bob Hawke John Monash Scholarships and the Tim Fischer John Monash Scholarships.	The instrument establishes legislative authority for government spending for grants to the General Sir John Monash Foundation to administer the Bob Hawke John Monash Scholarships and the Tim Fischer John Monash Scholarships.	\$10 million in two one-off grants in 2019-20.
<b>Industry Research and Development (Manufacturing Modernisation Fund Program) Instrument 2019 [F2019L01538]</b>	Manufacturing Modernisation Fund Program	The instrument establishes legislative authority for government spending on the Manufacturing Modernisation Fund Program. An estimated \$20 million will be allocated to small grants to support investment in technologies, and an estimated \$30 million will be allocated to larger grants to support transformative investment opportunities.	\$50 million in 2019-20.
