**Outcome Number:** Cross Outcome - Across Programs

**Question No:** 219

**Topic:** McClure Review

**Hansard Page:** 27/02/2014 CA7 and Written

**Senator Moore** asked:

Will the Department put the McClure Review guidelines or guiding principles on the web for public consumption? If so, from what date?

**Answer:**

The document containing guiding principles for the review was tabled at the hearing on 27 February 2014.

At this stage, the review is predominately an internal government process, hence there is currently no public information on the review on the DSS website. Making the review a more public process at some stage would be a decision of Government.
