Senator Leyonhjelm, David asked:

The Department provides a list of organisations to which it has provided grants since 2009. However, there is no up-to-date list of organisations that have lost all funding in the most recent selection process following the changes announced by the Minister last year. Can the Department provide the Committee with such a list, broken down by State, with a one-line summary of what each organisation purported to do?

Answer:

No. The Department does not provide details of unsuccessful applicants as it can disadvantage organisations which applied.
