ANSWERS TO ESTIMATES QUESTIONS ON NOTICE
Social Services Portfolio
2014-15 Budget Estimates Hearings

Outcome Number: 1

Question No: 143

Topic: Family Tax Benefit

Hansard Page: Written

Senator Moore asked:

Has the Department done any modelling on the impact of these [FTB] measures on various family types? If yes, could the Department please provide that modelling? Can the Department provide copies of the modelling it undertook after the budget, that includes the issues like the cameos?

Answer:

The Department does analysis of the impact of measures on families.

The Department may estimate the impact of certain measures on different family types by developing cameos. As families are impacted differently depending on their circumstances (including income, number and ages of children), it is not possible to provide examples for every possible scenario.
