Question:

I need a global number for the forward estimates. It is broken down by programs. It does not have the actual global amount for the department for outcome 4 as a whole.

Answer:

The total administered funding Budget estimate for the Department of Health and Ageing for Outcome 4 as at Budget 2012-13 was \$11.169 billion.

These estimates were varied at Mid-Year Economic and Fiscal Outlook 2012-13 and the new estimate for Outcome 4 is \$11.191 billion.
