Notes:

The Home Care Packages Programme commenced on 1 August 2013. This data includes one month of approvals. Data only includes records where ACAT approval is before admission date. Data only includes first admissions in a location. Location is based on the postcode of the recipient's residence.

A small number of recipient postcodes are invalid and not able to be reported by remoteness area. Postcodes that have elapsed time data based on between 1 and 4 admissions have been suppressed to ensure confidentiality. The Australian Capital Territory data with unknown elapsed time are excluded.

Data for elapsed time by remoteness were sourced at a later date than the data for elapsed time by state/territory. Data for residential care only includes permanent residents.

np Not Published – Nil or rounded to zero
