**Question No: 240**

**Program No.: Australian Broadcasting Corporation (ABC)**

**Hansard Ref: In Writing**

**Topic: Government Payments of Accounts**

**Senator Ludwig asked:**

1. From Supplementary Budget Estimates in November 2013 to date, what has been the average time period for the Department/Agency paid its accounts to contractors, consultants or others?
2. How many payments owed (as a number and as a percentage of the total) have been paid in under 30 days?
3. How many payments owed (as a number and as a percentage of the total) have been paid in between 30 and 60 days?
4. How many payments owed (as a number and as a percentage of the total) have been paid in between 60 and 90 days?
5. How many payments owed (as a number and as a percentage of the total) have been paid in between 90 and 120 days?
6. How many payments owed (as a number and as a percentage of the total) have been paid in over 120 days?
7. For accounts not paid within 30 days, is interest being paid on overdue amounts and if so how much has been paid by the portfolio/department agency since 7 September 2013?
8. Where interest is being paid, what rate of interest is being paid and how is this rate determined?

**Answer:**

1. 36 days
2. 169 payments (60%) have been paid under 30 days.
3. 76 payments (27%) have been paid between 30 and 60 days.
4. 21 payments (7%) have been paid between 60 and 90 days.
5. 8 payments (3%) have been paid between 90 and 120 days.
6. 7 payments (3%) have been paid over 120 days.
7. The ABC does not pay interest on overdue invoices unless a tax invoice for the interest is received from a supplier. It is extremely rare for interest to be charged by a supplier as the reason for deferred payment is typically due to a mutual understanding (i.e. disputed charges etc). Interest paid on overdue invoices YTD is insignificant.
8. Interest would theoretically be calculated in accordance with section 8AAD of the *Taxation Administration Act 1953* and would be based on the relevant daily general interest charge rate quoted for the relevant day. However, as stated above, the ABC rarely is charged interest by its suppliers. An example of how interest is to be calculated is provided in *Finance Circular 2012/02*.
