Topic: Tasmanian rollout - FTTN/Speed

Senator Lambie, Jacqui asked:

1. Has the speed of the Tasmanian rollout of the NBN fiber to the node been confirmed?
2. Can you please confirm the data speed that is going to be available for each region and can you please provide information that has been used to verify this predicted speed.
3. Is this going to be different in the various regions of Tasmania?
4. If so can you please provide details on how this is going to be achieved in all regions?

Answer:

1. The nbn rollout is planned to be complete in Tasmania by June 2018.
- 2-4. The theoretical maximum download speed will differ by technology, however all premises will have access to download speeds of at least 25 Megabits per second.
