Question No: 159

nbn

Hansard Ref: Written, 22/2/2016

Topic: Lead-in installations - across all access technologies

Senator Urquhart, Anne asked:

In its Corporate Plan 2016, how many lead-in installations (i.e. drops) in total does NBN Co assume will be required until the end of the build across all access technologies?

Answer:

Due to ongoing design considerations the volume of lead-in installations across all technologies is not able to be reliably estimated at this time.
