Hansard Ref: Page 103, 9/02/2016

Topic: Breakdown of FTTN tiers

Senator Conroy, Stephen asked:

Senator CONROY: Could I get a breakdown, if it is possible, of the FTTN tiers? I appreciate they are small numbers but their percentages.

Mr Rue: I know from memory 70 per cent is 25-5. I do not have the split otherwise.

Mr Morrow: I believe there are another 10ish on 12. Let us get the facts. We can grab those. They are readily available.

Answer:

For the week ending 3 March 2016, the percentage of total fibre-to-the-node (FTTN) services broken down by speed tier is:

FTTN Speed Tier	Percent
12/1	22%
25/5	67%
25/5-10	0%
25-50/5-20	4%
25-100/5-40	7%
