**Senator O'Neill, Deborah asked:**

**Senator O'NEILL:** Can I just ask, on the back of the questions from Senator Simms, for a similar outline for New South Wales—the goals that were established at the beginning of 2015, what you met, what you did not meet and what your proposed targets for New South Wales in 2016 are at this stage, so that they can go on the record?

**Mr Morrow:** We will provide that information.

**Senator O'NEILL:** Thank you very much—down to the lowest level of data construction you can give so we can make some comparisons with geographical areas. That would be helpful.

**Mr Morrow:** Just to be clear: you are trying to understand what the rollout plan was and how we performed against it, down to the numbers?

**Senator O'NEILL:** Yes.

**Mr Morrow:** You are looking for the number of homes?

**Senator O'NEILL:** Yes, and projections for 2016 so we have got that data going forward.

**Mr Morrow:** All right.

**Answer:**

nbn's deployment progress is tracked against national corporate plan targets, which were met for the 2015 financial year and are on track to be met for the 2016 financial year.
