Topic: Developing the Developers – Women v Men attending session

Senator Bilyk asked:

Senator BILYK: That is free?

Ms Cameron: Yes, it is. We did a call-out for 15. Once again, over 90 people applied and then we assessed based on what they are doing, where they sit and how they position themselves, and then we will be taking them through.

Senator BILYK: How many women to men are attending that session?

Ms Cameron: That is a very good question. I am fairly sure it is fairly equal, but I do not know the exact numbers. I will take that on notice.

Answer:

The three-day workshop consisted of 13 female and 3 male participants, with one female and two male observers.
