Special Broadcasting Service

Question No: 367

Program No. SBS

Hansard Ref: Page 28 25/5/2014

Topic: Review results

Senator Ruston asked:

1. Apart from the efficiency study, have you done any other studies or specific programs in terms of identifying non-programming efficiencies?

Answer:

1. SBS undertook a cost and efficiency review for the last triennial funding process covering the 2008/09-2011/12 financial years. The identification of efficiencies is built into our annual planning processes. We also have a dedicated team looking at operational work flows. Through these two processes, SBS has identified \$17 million worth of efficiencies in the last two years.
