**Topic: Supply of NBN rollout data**

**Senator Urquhart, Anne asked:**

Please provide the dates between 1 January 2016 and 2 July 2016 where NBN supplied rollout data to the Department of Communications and the Arts.

- (a) In what format is this data provided? Please provide file-type.
- (b) Please outline all the categories of information that the data contains.
- (c) Is the same data also provided to service providers?

**Answer:**

nbn provides rollout data to the departments on an almost daily basis in response to specific enquiries, responses to correspondence and also as part of regular reporting. To search and collate all of these instances across multiple employees would be an unreasonable diversion of resources. nbn also provides rollout data to retail service providers, some of which would overlap with that provided to the Departments.
