Question No: 320

NBN Co Limited

Hansard Ref: Written, 27/06/2017

Topic: FTTN projection for end of rollout

Senator Urquhart, Anne asked:

At the end of the rollout in 2020 how many FTTN premises does NBN expect will be RFS across the following areas?

State	FTTN RFS at end of rollout
NSW	
QLD	
VIC	
WA	
SA	
ACT	
TAS	
NT	

Answer:

At the end of the rollout in 2020, nbn expects 100 per cent of FTTN premises to be ready for service in each state and territory. The exact number will vary based on optimisation of the technology selection during the design phases and as new technologies or processes emerge. This flexibility is the key element of the multi-technology model.
