Hansard Ref: Written, 27/06/2017

Topic: Mobile devices

Senator Urquhart, Anne asked:

How much has NBN spent on mobile devices (such as iPhones and tablets) since FY2014 to date?

Answer:

Prior to December 2014, nbn did not buy mobile devices separately as these were procured as part of a plan, which included hardware, and voice and data services. From December 2014, voice and data services, and mobile devices were procured separately. Therefore, total expenditure on mobile device hardware from December 2014 to June 2017 (inclusive) was \$4,552,707.89.
