**Supplementary Budget Estimates Hearings November 2014**

**Communications Portfolio**

**NBN Co Limited**

**Question No: 211**

**Program No. NBN Co**

**Hansard Ref: In Writing**

**Topic: NBN Co's rollout map**

**Senator Urquhart asked:**

1. According to NBN Co's rollout map, the footprint for 8DRW-08 is different to the initial network design document. Why?
2. According to NBN Co's rollout map, the footprint for 4GDN-05 is different to the initial network design document. Why?

**Answer:**

1. 8DRW-08 was aggregated into 8DRW-06 and 8DRW-07 as part of a network redesign. All premises within these modules are in build using fibre-to-the-premise access technology.
2. A portion of 4GDN-05 is deemed adequately served (*as declared by the authority of the Minister for Communications in accordance with the 'adequately served' policy*) and its boundaries have therefore been realigned as part of a network redesign to further optimise the rollout.
