Question No: 468

Program No. Special Broadcasting Service

Hansard Ref: Hansard Page 97 20 November 14

Topic: Website

Senator Ruston asked:

CHAIR: On the back of that, were any other government resources included in that information? For instance, ABS has a fisheries status report. Were any of those actual government reports used?

Mr Khalil: I do not have that detail but I can take that on notice and come back to you to provide the committee with a list of all of the different government reports that were used either on the website or as part of the program.
