Question No: 59
Hearing: Supplementary Budget Estimates
Outcome: Outcome 1.6
Programme: Science Division
Topic: State of the Environment Report - climate refugee species
Hansard Page: N/A
Question Date: 21 October 2015
Question Type: Written

Senator Urquhart asked:

1. What Australian ecosystems are seeing the greatest influx of climate refugee species?

Answer:

The State of the Environment 2016 process is currently in its initial scoping phase. Climate change and climate variability as a key driver with a direct impact on Australia's environment and its future condition will be discussed in the report.
