

Senate Committee: Education and Employment

**QUESTION ON NOTICE
Additional Estimates 2014 - 2015**

Outcome: Agency: TEQSA

Department of Education and Training Question No. SQ15-000213

Senator Carr, Kim provided in writing

TEQSA registered provider enrolments

Question

At the last Estimates hearing, I asked TEQSA to provide detailed data about enrolments in all – that is each – registered provider. You provided me with an aggregate figure (an estimated 1,279,200 students); and a breakdown by level of course.

Can I please have data, by provider, on enrolments and level of course?

Answer

The Tertiary Education Quality and Standards Agency has provided the following response.

TEQSA makes an annual request for targeted student data from some providers that do not currently report student data through the main national higher education collections managed by the Department of Education.

2013 student data (providers by enrolments by course level) collected by TEQSA from registered providers is attached.
