**QUESTION ON NOTICE  
Additional Estimates 2015 - 2016**

**Outcome: Higher Education Research and International**

**Department of Education and Training Question No. SQ16-000403**

Senator Carr, Kim provided in writing.

***Breakdown of student completions***

**Question**

Please provide a breakdown of student completions for Bachelors of Arts, Laws, Commerce, Information Technology/Computer Science, Science and Medicine since 2001, broken down by gender. Please include in this categorisation those masters-level professional degrees that also prepare students for careers in the legal, medical and other fields, noting the impacts of institutional reforms such as the Melbourne Model.

**Answer**

A breakdown of student completions since 2001 can be found in Attachment A – student completions 2001-2014. Data for masters-level professional degrees has not been included as these courses are not separately identified in the student data collection.
