Outcome: Skills and Training

Department of Education and Training Question No. SQ17-000203

Senator Griff, Stirling provided in writing.

Mentoring Australia's Apprentices Project - completion rates and breakdown of industries

Question

Regarding the Mentoring Australia's Apprentices Project (MAAP) which was funded under AAMP between 2011-12 and 2013-14, what was:

- a. The average completion rates for participating apprentices
- b. The breakdown of the industries these participants were engaged in

Answer

The Mentoring Australia's Apprentices Project (MAAP) was one of 140 projects funded under the Australian Apprenticeship Mentoring Program (AAMP). MAAP was delivered by VETnetwork Australia.

As a result of the time-limited nature of the program and the range of participants with a variety of apprenticeship terms, it is not possible to calculate the specific impact on completion rates.

The breakdown of industries that participated in MAAP can be found in the list of AAMP projects published on the Australian Apprenticeships websiteⁱ.
