Question

FWO - Building and contraction reports

Senator CAMERON: Is there a report that you could provide to the committee about what the nature of these complaints was and how much was recovered?

Ms James: We can certainly give you that overall data. I can go back a couple of years, if you like. As to whether we can provide you with more, I will take that on notice. I am sure we could give a flavour of the nature of the matters that we have dealt with and probably break them down into different types, if you like.
