Question

FWO - Transport Workers Union contract progress report

Senator PATERSON: The contract further states at schedule 1(c) that the TWU would provide some progress reports to the Fair Work Ombudsman at the two-, six- and nine-month point of the contract and that a final report was due by 13 June 2014. So, by my recollection, that means that four progress reports were required. Do you know if they were ever submitted?

Ms James: I will take that on notice. I am aware that there were ongoing conversations. Whether they meet the requirements of the contract is something I will need to take on notice.

Senator PATERSON: So if those progress reports were provided, could you please provide them to the committee on notice as well?

Answer

Three progress reports were submitted by the Transport Workers Union.
