Department of Employment Question No. EM1246_15

Senator Ludwig provided in writing.

Question

SWA - Unallocated Equipment

1. Please detail how much electrical equipment, phones and computers the department/agency has in storage or unallocated to staff 2. Please detail the purchase, storage and ongoing costs associated with equipment, phones and computers in storage or unallocated.

Answer

- 1) Safe Work Australia procures its electrical equipment including computers, laptops and phones through the Department of Employment and Department of Education Shared Services Centre. As a result, the agency does not store any excess equipment. The agency currently has 15 unallocated Dell Optiplex 980 computers which are being phased out as they have reached end of life. They are due to be disposed of shortly.
- 2) There are no storage or ongoing costs associated with unallocated equipment. The purchase cost of the equipment is detailed in the table below.
