Question:

Senator SIEWERT: Can I just check this. I have not seen that list. You have just mentioned that one of the issues with Bloodwood is that, as you have just said, the other hostels are owned by the state. Could you also give us who? Do you have that level of detail? You obviously know about Bloodwood.

Ms Edwards: We will update the table because, as to the one we provided last time, we still had not finally decided every single interim funding position, and we certainly had not finalised IAS funding. We will update the table and reprovide it with that information, and we will have a look at whether we have other information; it might be appropriate to add additional columns—

Answer:

There were 29 hostels affected by the cessation of Aboriginal Hostel Limited's (AHL) Corporate and Community Partnerships Program (CCPP). Of these, 27 have received interim IAS funding in 2014-15.

As at 17 June 2015, under the general IAS round 18 of the former CCPP hostels have been supported for hostel services beyond 1 July 2015 and contracts are currently being negotiated with service providers. Information on all grants funded by the Department (including contract term, organisation name and value of the contract) are available on the Department's website within 14 days of grant agreements taking effect <http://www.dpmc.gov.au/indigenous-affairs/grants-and-funding>. Please also refer to PM 114.
