Question: 171

Division/Agency: Grains Research and Development Corporation

Topic: What are the numbers in rural and regional communities in Australia and what is the reach of *The Australian*.

Proof Hansard page: 38

Senator CAMERON asked:

Senator CAMERON: Forgive me, but I am not inspired. I really do not know what it is about. It just says here—and it is pretty difficult to read—the Grains Research and Development Corporation was founded in 1990, so there is a bit of history there. I think Malcolm Turnbull might have written this. It talks about innovative innovation. It talks about advancing the grains industry at every level and 'to find out more, go to our website'. What is the reach of *The Australian* into the rural and regional communities? What are their numbers in rural and regional Australia? Did you look at that before you made this ad?

Mr Harvey: For the detail, I will ask my executive manager of communications to respond to that question.

Ms Lord: So in answer to the question, when we look at any sponsorship of conferences, this is part of a broad portfolio of activities we have in reaching a range of stakeholders. We look at what we think the opportunity will provide. So for *The Australian* I think Roy Morgan would state that the *Weekend Australian* is around 660 000 in circulation. It is quite significant penetration into regional Australia. But I would have to take it on notice if you wanted that research.

Answer:

The average circulation of *The Australian* is:

- Monday - Friday: 104 165
- Weekend: 230 182.

The average circulation of *The Weekend Australian Magazine*: 230 859.

The average daily circulation of *The Australian* tablet app: 14 401 Australian users.

Online, *The Australian*, which incorporates the *Business Spectator* and *Wall Street Journal* has an unduplicated monthly unique audience: 1 472 000.

Question: 171 (continued)

The Australian mobile site, which incorporates the *Business Spectator*, has an average domestic audience: 68 660.

Question: 172

Division/Agency: Grains Research and Development Corporation

Topic: Circulation of *The Australian* in rural and regional Australia

Proof Hansard page: 39

Senator CAMERON asked:

Senator CAMERON: Okay. Off the top of your head, what is the circulation of *The Australian* in rural and regional Australia?

Ms Lord: I would have to take it on notice, but I understand that the circulation for *The Australian* is, Monday to Friday, around 340 000. I think that is 2014 data. I think the *Weekend Australian*, as I said, is 660 000. Of that, I would have to take it on notice to give you more detail and break it down.

Answer:

Average circulation of *The Australian* to **regional** areas is:

- Monday to Friday: 47 000
- Saturday: 77 000.

The average regional/rural circulation of *The Weekend Australian Magazine*: 55 000.

The average daily circulation of *The Australian* tablet app: 7000 Australian regional/rural users.

Online, *The Australian*, has a regional/rural audience: 130 000.

The Australian mobile site, has a regional/rural audience: 19 000.

Question: 173

Division/Agency: Grains Research and Development Corporation

Topic: Brand Refresh

Proof Hansard page: 39

Senator CAMERON asked:

Senator CAMERON: How much did it cost to develop the ad?

Ms Lord: So the ad was part of a brand refresh that the organisation is undertaking. So far, the project to refresh the GRDC brand, which began with board approval into 2014, has cost the organisation \$55 000. The development of the ad at this stage, I think, if the figure is correct—and I will have to check it on notice—is \$1 400.

Answer:

Development of the ad-banner run in *The Australian* on 28 January 2016 as part of the Grains Research and Development Corporation's sponsorship of the Global Food Forum was \$1024.10.

Question: 174

Division/Agency: Grains Research and Development Corporation

Topic: GRDC sponsorship deal

Proof Hansard page: 40

Senator CAMERON asked:

Senator CAMERON: Mr Harvey, you are speaking at the conference, are you?

Mr Harvey: The chairman of Grains Research Development Corporation, Richard Clark, will be participating.

Senator CAMERON: Can you provide details of the sponsorship deal that you have done?

Ms Lord: Yes, we would be happy to provide it on notice.

Answer:

Sponsorship of the Global Food Forum provides:

- an opportunity for the Grains Research and Development Corporation (GRDC) Chair Richard Clark to participate in a panel discussion – topics including innovation in farming, research and development and the growth and importance of the grain industry.
- a discounted ticket price for people in the GRDC member database.
- an opportunity to host two tables of 10 guests at the event.
- an opportunity to provide GRDC information and materials directly to the attendees.
- event branding.
- ‘Sponsored by’ acknowledgement at the start of the event.
- co-branded event program on tables.
- co-branding on official invitation to guests.
- that GRDC’s logo will be on the media wall behind the stage.

Question: 174 (continued)

- that GRDC's logo will feature on some campaign material.
- 100 per cent share of voice on the Global Food Forum's online hub.
- access to all specifically created partnership content to run across GRDC channels and within newsletters.
- exclusive branding around the post event coverage across *The Australian* platforms.
- that GRDC's logo will appear on a proportion of the co-branded activity.
- \$70 000 investment, which event organiser estimates to be valued at \$330 651.00.

Question: 175

Division/Agency: Grains Research and Development Corporation

Topic: Was advice sought regarding whether sponsoring a conference consistent with your obligations under the Act

Proof Hansard page: 41

Senator CAMERON asked:

Senator CAMERON: So you can underline it and send it in? That would be handy. You are saying that sponsoring a conference—the food forum—is consistent with your obligations under the act?

Mr Harvey: I believe so.

Senator CAMERON: Did you get advice on that before you did it?

Mr Harvey: I would need to take that on notice and check.

Answer:

The Grains Research and Development Corporation's functions under the *Primary Industries Research and Development Act 1989* (PIRD Act) include reporting on the impact of research and development (R&D) activities on the grains industry and the wider community; and facilitating the dissemination, adoption and commercialisation of the results of R&D.

No specific legal advice was sought regarding the sponsorship of the Global Food Forum.

See attached copy of the PIRD Act – relevant section (Section 11, sub-section 11(e)) highlighted.

Question: 176

Division/Agency: Grains Research and Development Corporation

Topic: Food Forum list of sponsors

Proof Hansard page: 41

Senator CAMERON asked:

CHAIR: Thank you—but, before you started, I started. I want to get this straight. In terms of the sponsorship of the food forum, which they advertise for months ahead in *The Australian* press, who are the sponsors? Do you have a list of sponsors?

Ms Lord: Yes, there is another sponsor—Visy, which is a research firm as well.

CHAIR: The Pratt family does not put in anymore?

Ms Lord: I am not clear on that—I would have to take that on notice.

Answer:

No. The Pratt family is involved in the Global Food Forum via sponsorship take up by Visy Industries Australia. The company's CEO, Mr Anthony Pratt will be a speaker at the forum.

Question: 177

Division/Agency: Grains Research and Development Corporation

Topic: Location of dinner prior to the Food Forum

Proof Hansard page: 42

Senator CAMERON asked:

Senator CAMERON: Does that include functions after the forum? Is there a dinner at the forum? Are you going to do any R&R at the forum? What happens?

Ms Lord: The conference itself is a full day, so it is quite an intensive program for attendees. There will be a dinner the evening prior, which *The Australian* is organising, but purely for panellists and spokespeople so they can acquaint themselves before they speak.

Senator CAMERON: Where is the dinner?

Ms Lord: I am not clear at this stage where the dinner is, but I can take it on notice.

Answer:

The dinner hosted by *The Australian* will be held at Vue du Monde.

Question: 178

Division/Agency: Grains Research and Development Corporation

Topic: List of GRDC's syndicated radio programs

Proof Hansard page: 43

Senator CAMERON asked:

Senator CAMERON: What about metropolitan radio advertising?

Ms Lord: From time to time we will do different syndicated radio programs. For a comprehensive list, I would have to take it notice, because obviously—

Senator CAMERON: Can you take it on notice, because I am not sure that—I have been told that you have been advertising in the Sydney metropolitan area.

Ms Lord: Not to my knowledge, but I will take it on notice. The only thing I could think of at this stage to inform you is potentially our regional updates—in some areas where we might expect 600 growers to turn up to a regional update, we may have broadened that out to meet metropolitan radio. But I am not sure at this stage. I will take it on notice.

Answer:

At the time of the Senate Estimates hearing the Grains Research and Development Corporation had no advertising on metropolitan radio. Subsequently through Fairfax radio, we have alerted people to a series of roundtable events in key grain growing regions.

Topic: Breakdown of full-time equivalents

Proof Hansard page: 43-44

Senator CAMERON asked:

Senator CAMERON: How many full-time staff do you have?

Mr Harvey: We have 79 positions.

Senator CAMERON: in your annual report on page 93—did you say 79—

Mr Harvey: Positions.

Senator CAMERON: Is that full-time equivalent?

Mr Harvey: No, I do not think they are. That is positions.

Senator CAMERON: Can you break that down then into full-time equivalents?

Mr Harvey: I would need to take that on notice.

Answer:

The Grains Research and Development Corporation budget provides for 79 full time equivalent staff.

Question: 180

Division/Agency: Grains Research and Development Corporation

Topic: Details regarding changes that have occurred in GRDC

Proof Hansard page: 44

Senator CAMERON asked:

Mr Harvey: With some of the changes that have occurred in Grains Research and Development Corporation, we have put a strong emphasis on bringing in the people that have the skills to be able to do the job. Obviously you need a technical base, but our staff employ, on a day-in and day-out basis, communication skills, facilitation skills, negotiation skills and leadership skills. So we have done quite a bit over the last 12 months in building—particularly at our general manager level—the skills that are required for our business.

Senator CAMERON: Can you give me a flavour of what is being done?

Mr Harvey: I can probably give it to you on notice, if you want the detail. One of the things that we are pushing very hard is that we have a truly value based organisation. So we have done quite a lot of work at looking at the organisational values and how that actually translates into the sorts of behaviours we want within the organisation to entrench and ensure that our customers get a good experience that is consistent with those values.

Senator CAMERON: So what kinds of programs are you undertaking to deal with these values and behaviours?

Mr Harvey: We have used some professionals to help us with those programs.

Senator CAMERON: Who are they?

Mr Harvey: I need to take on notice the actual name of the company.

Senator CAMERON: What are the names of the programs that are being delivered?

Mr Harvey: Again, I will need to take that on notice—

Answer:

The Grains Research and Development Corporation (GRDC) commenced a major restructure in June 2015. To support the cultural change aspect of the restructure a number of leadership programmes were developed, overseen by the GRDC's human resources (HR) team. One

programme, Values Based Leadership Course, was facilitated by an employee of the HR consulting firm “Culture Zone”.

Values Based Leadership Course: Managers participated in a one-day programme developed to refresh skills in coaching and giving feedback, and to raise awareness of the impact that our leadership has on GRDC’s culture. The course was facilitated by “Culture Zone”.

Leadership Coaching: Our new General Manager cohort was provided support through dedicated leadership coaching in which individuals were matched with coaches by the HR team. Each individual had two or three goals set by the organisation and one or two confidential personal goals.

90 Day Plan Workshop: Our new General Manager cohort participated in a three-day workshop, giving them the skills to develop a 90 day strategic plan. The GRDC now owns this workshop and we will run it as necessary in the future.

Resilience and Change Workshop: All staff were given the opportunity to attend a resilience and change workshop prior to the beginning of the restructure.

Division/Agency: Grains Research and Development Corporation

Topic: Cost, and number of programs that have been undertaken

Proof Hansard page: 45

Senator CAMERON asked:

Senator CAMERON: Okay. So give me a flavour—you said values and behaviours. What are these?—one day, two-day programs? What are they?

Mr Harvey: Typically one-day programs, but not just one-off. So over a period of six months there might be a couple.

Senator CAMERON: Have you undertaken any of them personally?

Mr Harvey: Correct.

Senator CAMERON: Yes or no?

Mr Harvey: Yes.

Senator CAMERON: How many have you undertaken?

Mr Harvey: We had one last week.

Senator CAMERON: How many have you undertaken?

Mr Harvey: I would prefer to take that on notice. It is probably—maybe—two or three at the most during the year, during the last 12 months. But I need to check that.

Senator CAMERON: So you don't know how many of these programs you have done in the last 12 months?

Mr Harvey: I don't have it at the top of my head. I can look it up, and I can take it on notice.

Senator CAMERON: They must have been really memorable if you can't remember how many you've done.

Senator WILLIAMS: He has answered the question.

Senator CAMERON: So how many of your staff have undertaken them?

Mr Harvey: I need to take that on notice.

Senator CAMERON: What has been the cost of these programs?

Question: 181 (continued)

Mr Harvey: I need to take that on notice.

Senator CAMERON: Is there anyone here who can give me any advice on that? Have you got a chief? Somebody must be able to. You just can't take everything on notice because you don't want to answer.

Mr Harvey: Just to be clear, my executive manager, corporate services, who is in charge of this area, is currently on compassionate leave and was not available to come along today. That is the sort of material that she would normally have at her fingertips.

Senator CAMERON: Well, didn't you think somebody else could bring that information today?

Mr Harvey: Danny is acting in that role, but I am not sure that she has that here.

Senator CAMERON: Do you have it, Danny?—Ms Jakubowski, I am sorry.

Ms Jakubowski: No, Senator.

Mr Harvey: Senator, we can take it on notice.

Answer:

The cost of these programmes was:

Leadership Coaching: \$17 600 (excluding GST). Eight staff were identified for this training.

90 Day Plan Workshop: \$12 000 (excluding GST). Eight staff were identified for this training.

Values Based Leadership Course: \$5 000 (excluding GST). Six Executive Managers have undertaken this training. It will be rolled out to a further 12 Staff.

Resilience and Change: All staff were provided with this opportunity. No cost is available, due to this being a component of a wider body of work that was undertaken by the provider.

Since February 2015, Mr Harvey has undertaken one of the training opportunities developed; the Value Based Leadership course.

So I am going to ask—you may not have these figures at your fingertips—that, when you combine those sorts of exercises together, what does that cost the GRDC?

Mr Harvey: Again, I will need to take that on notice.

Answer:

Activities run by the Grains Research and Development Corporation (GRDC) social club are 100 per cent staff funded. In addition, in the last 12 months, GRDC held two stakeholder networking dinners, which staff attended. The cost for these events averaged approximately \$5 000 for 100 guests.

Mr Harvey: In the last 12 months, most of which is post the last annual report, we have been very much focused on making sure that we have the right investment process and the right balance of investments in the portfolio.

Senator CAMERON: You could do that without taking an excursion, couldn't you? Why do you need an excursion to do that basic work?

2. How does advertising in the Australian newspaper fit in with legislative requirements of the Primary Industries Research and Development Act 1989 (PIRD Act)?
3. Overall cash receipts for grain, oilseed and pulses was in decline, what were the contributing factors for this result?

8. Why was it necessary to have staff undertake these exercise
9. What was the cost of these exercises and events?
10. Can you provide current statistics on Australia's Total Factor Productivity for the grains industry

Question: 191 (continued)

Answer:

1. The Grains Research and Development Corporation (GRDC) did not directly place an ad in *The Australian*. An ad-banner containing a photo, the GRDC logo and corporate information ran in this newspaper on 28 January 2016 as part of the GRDC's sponsorship of the Global Food Forum. The forum is an important platform for discussing issues relevant to grain growers and positioning the grains industry generally, and GRDC specifically, as a valuable contributor to the Australian economy and society more generally. In turn this will help attract talented people to work in the industry.
2. GRDC's sponsorship of the Global Food Forum is consistent with the GRDC's functions under the *Primary Industries Research and Development Act 1989* to disseminate the results of research and development.
3. The reduction in average grain, oilseed and pulse receipts in 2014-15 is mainly a result of lower production in all the major producing states, reflecting a decline from the high yields in 2013-14 combined with reduced prices for wheat, pulses and oilseeds.
4. The GRDC packages its research outcomes and into a range of products, services and events, which it delivers using traditional and new extension formats such as phone and tablet 'apps'. Key communication channels include GRDC's flagship *Ground Cover* magazine, and *GrowNotes*.

The GRDC is updating its systems and processes to make it easier for growers to understand its levy-based investment in grains research and development (R&D) and how that translates to on-farm productivity and profitability.

GRDC is implementing a new hierarchy and classification for its investment portfolio so that projects are balanced and project time horizons and benefits are clearer to growers.

GRDC is transferring many functions to its four regional offices to improve engagement with growers, grower groups, advisers and researchers.

In the 2015 Grower Survey, 70 per cent of growers stated that they were influenced to make practice changes to their grains enterprise over the last two years directly due to GRDC information.

GRDC's Farm Practice Survey is conducted every three years and asks growers about the extent to which they've adopted improved farming practices. This has shown a consistent rise in the adoption of improved farm practices in every survey since its inception in 2008.
