Australia Council for the Arts
Grants List 2006-07

The Australia Council for the Arts is the Australian Government's arts funding and advisory body. It enriches the lives of Australians and their communities by supporting the creation and enjoyment of the arts.

The Australia Council cultivates the nation's creativity by investing in artists and arts organisations working in Aboriginal and Torres Strait Islander arts, community partnerships, dance, literature, music, theatre, visual arts and multi-artform practices.

In 2006-07, the Australia Council provided \$156 million in total funding through 1799 grants, projects and initiatives to artists and arts organisations. This funding supported the creation of 4476 new artistic works, the presentation of 3636 new artistic works and 9.3 million attendances at arts events.

This grants list is a catalogue of the grants, projects and initiatives which were paid in 2006-07. These grants, projects and initiatives are grouped by artform for ease of reference.

You may wish to read this document in conjunction with the Australia Council's annual report for 2006-07, which is available at <www.ozco.gov.au/annualreport0607/>.

Grants

The Australia Council's artform boards and committees provide funding through six primary grant categories:

- New work – to support the creation of new work through funding for one-off projects
- Presentation and promotion – to increase resources, opportunities and audiences for Australian arts by presenting, exhibiting, publishing, distributing and/or promoting artistic works
- Skills and arts development – to provide professional development opportunities through residencies, mentoring relationships, seminars and conferences
- Fellowships – to recognise outstanding artistic achievement by supporting a period of creative work for established artists
- Program grants – one-year funding to a number of significant organisations that enrich Australian artistic practice
- Key organisations – triennial – three-year funding to outstanding organisations with a national, state or territory focus that develop a viable infrastructure to advance the arts in Australia.

Projects and initiatives

The Australia Council also supports a number of projects and initiatives to build the capacity of the arts sector. These include major projects of international significance such as the Venice Biennale 2007 or the Musée du quai Branly in Paris. Other examples are strategic initiatives such as Story of the Future and philanthropic programs whose aim is to contribute to the development of a strong and vibrant arts sector.

These projects and initiatives aim to:

- build the capacity of the arts sector through operational advice and resources
- facilitate partnerships between artists government and business
- promote the value of the arts
- help build new audiences at home and overseas.

Funding by sections

Australia Council funding for grants, projects and initiatives is distributed through its seven artform boards (Aboriginal and Torres Strait Islander arts, dance, literature, major performing arts, music, theatre and visual arts), the community partnerships and market development (CPMD) division and other sections (arts development executive, key organisations and strategy).

Notes

- Location of activity is listed after each recipient, with the state/territory/overseas location where most of the grant activity took place or in certain cases where the recipient is based.
- Several recipients are listed as having multiple grants in the same category. In these cases, they may have received multiple payments or the payment of the previous or next year's grant in the 2006-07 reporting period.
