The Australia Council offers a wide range of funding programs for Australian artists and arts organisations.

In 2007–08, we invested \$146.9 million in Australian artists and organisations through 1736 grants and initiatives. These ranged from small grants for emerging artists, to base funding for 28 major performing arts companies, to special initiatives to strengthen the arts sector.

There are grants and initiatives for all major areas of arts practice—Aboriginal and Torres Strait Islander arts, community partnerships, dance, interdisciplinary arts, literature, music, theatre, visual arts—and across artforms. We also offer a diverse range of programs designed to grow audiences for the arts in Australia and take Australian arts overseas.

Our grants

Most Australia Council funding for artists and organisations is through our grant programs.

The Australia Council offers grants for seven main purposes:

- supporting the creation of new work through funding for one-off projects
- increasing resources, opportunities and audiences for Australian arts by supporting the presentation, exhibition, publication, distribution and/or promotion of artistic works
- providing professional skills and arts development opportunities for artists through support for residencies, mentorships, seminars and conferences
- recognising outstanding artistic achievements by supporting a period of creative work for established artists through fellowships and awards
- supporting significant smaller organisations that enrich Australian artistic practice through one-year program funding
- supporting outstanding small to medium organisations that develop a viable infrastructure to advance the arts in Australia through multi-year key organisations funding
- supporting large performing arts companies of the highest artistic standards through major performing arts funding.

Our initiatives

The Australia Council supports a diverse range of projects and initiatives that build the capacity of the Australian arts sector. They include major national and international projects such as the Australian Performing Arts Market and Australia's representation at the Venice Biennale, particularly those that develop audiences for Australian arts.

There are also initiatives such as the story of the future to develop digital content, SCOPE to further dance careers, and philanthropic programs to develop the income of artists and arts organisations. Typically, these initiatives are a strategic response to opportunities the Australia Council has identified as important to the vitality and sustainability of the arts.

Funding by sections

In 2007–08, Australia Council funding for grants, projects and initiatives was distributed through its seven boards (Aboriginal and Torres Strait Islander arts, dance, literature, major performing arts, music, theatre and visual arts), the community partnerships and market development (CPMD) division and other sections (arts development executive and key organisations).

Notes

- All payments listed are based on cash payments made during the 2007–08 financial year.
- Location of activity is listed after each recipient, with the state/territory/overseas location where most of the grant activity took place or in certain cases where the recipient is based.
- Several recipients are listed as having multiple grants in the same category. In these cases, they may have received multiple payments or the payment of the previous or next year's grant in the 2006–07 reporting period.
