QUESTION No. AI-22

(Hansard 16/2/07, Page E16)

Senator JOYCE asked:—Can you tell me how much of Australia's export income, if you have it available there, comes from farm, non-farm—which is obviously mining—tourism and manufacturing?

Mr Paterson—Do you want farm and non-farm?

Senator JOYCE—Non-farm resources. I will make it easier: farm, mining, tourism and manufacturing?

Mr Paterson—We can provide a table to you that shows the export performance from pre June 1980 to date and then the projections going forward for mining exports, agricultural exports, manufacturing exports and service exports, if that would be of assistance.

ANSWER

The data series by industry sector only goes back to 1988 - earlier data are not available in this disaggregated form. The table of data follows:

AUSTRALIA: EXPORT VALUES BY INDUSTRY—CALENDAR YEARS

	Agriculture* (\$ billion)	Mining* (\$ billion)	Manufacturing* (\$ billion)	Services** (\$ billion)
