Question: AET 945

Topic: Provision of Equipment (ATO)

Written: 5 March 2014

Senator LUDWIG asked:

945) Is electronic equipment (such as ipad, laptop, wireless card, vasco token, blackberry, mobile phone (list type if relevant), thumb drive) provided to department/agency staff? If yes provide a list of what is provided across the department of agency, the purchase cost, the ongoing cost and a breakdown of what staff and staff classification receives each item.

Answer:

945) All ATO employees receive a standard desktop and monitor. Standard Notebook and encrypted thumb drives are issued to staff based on business need. To ensure economical use of these devices, they are able to be used in pooled or multiple user situations which are managed by user identification. This also assists with the monitoring of access and usage.

ATO employees who receive other electronic devices have an identified business need to be contactable at any time or require remote access to departmental resources. The employee classifications that have access to electronic devices based on business needs are:

- Commissioners
- SES Band 2
- SES Band 1
- EL2
- EL1
- APS4-6.

The ATO provides the following electronic devices to employees:
