

Senate Economics Legislation Committee

ANSWERS TO QUESTIONS ON NOTICE

TREASURY

Australian Taxation Office

(Budget Estimates 2 June 2005)

Outcome 2

Topic: Update of all contracts let (or pending) relating to ICT

Supplementary written Question on Notice: Supp Lundy 4

Senator Lundy asked:

I ask the ATO to provide an update of all contracts let (or pending) relating to ICT within the Agency, including the value, the date signed, the contractor, the duration and a description of the purpose. Please provide this information since 1.7.96.

Note - much of this information has been provided in other forms but I am seeking the complete picture, including before and after the EDS contract

Answer:

Attached is a list all ATO ICT contracts with a value greater than \$100,000 from 2001, when the half yearly reports were first required for the Murray motion. The contract values are for the life of the contracts extending as far as 2008.

Details of contracts earlier than when the Senate Order was introduced are not readily available. This is due to a number of recording systems being used and, due to storage limitations, hard copy records being archived. It would require substantial cost and significant effort to bring together the details of contracts prior to the introduction of the Senate order.

Contractor	Subject Matter	Amount of Consideration	Ref No	Start Date	Anticipated End Date
