

Senate Standing Committee on Economics
ANSWERS TO QUESTIONS ON NOTICE
Innovation, Industry, Science and Research Portfolio
Budget Estimates Hearing 2011-12
30 May 2011

AGENCY/DEPARTMENT: INNOVATION, INDUSTRY, SCIENCE AND RESEARCH

QUESTION RECEIVED BY DEPARTMENT ON MONDAY 1 AUGUST 2011

TOPIC: R&D

REFERENCE: Written Question – Senator Boyce

QUESTION No.: BI-141

- 1) What proportion of funding is subject to milestone achievements based on its application to industry or practical use such as in health or environment, ie how much is translated into tangible outcomes?
- 2) What funding is available for translation or commercialisation of this research to help service existing small business in Australia?
- 3) What quality assurance measures are conducted by AusIndustry to ensure its programs are administered in the same way across states?
- 4) Does AusIndustry conduct any customer surveys of those who interact with its grant programs?
- 5) If so, where are the results of the survey published?
- 6) What statistics does AusIndustry gather to measure the outcomes of its programs?

ANSWER

Please refer to the response provided to Parliamentary Question on Notice 700 asked by Senator Boyce on 22 June 2011. Senate Hansard 17 August 2011, page 105.
