ANSWERS TO QUESTIONS ON NOTICE

Treasury Portfolio

Supplementary Budget Estimates, 2 November to 3 November 2005

Question: SBT 42

Topic: APRA – Publishing of Reported Claims

Hansard Page: Written

Senator Webber asked:

Will numbers of reported claims be published for each class of insurance?

Answer:

The information about number of claims is currently captured in General Insurance Reporting Form 440.0 (GRF 440.0). This form is not included in the forms under consideration to be determined non-confidential.

It is therefore not intended to publish these data at this stage. However this will be considered for future publications if the feedback that APRA receives indicates that these data are required. If so, further consultation will be required to determine the industry's attitude to disclosure of these data.
