SENATE LEGISLATION COMMITTEE – QUESTIONS ON NOTICE 2003-2004 ADDITIONAL ESTIMATES HEARING

Outcome: CSIRO
Output Group: - CSIRO

DEST Question No. E961_04

Senator Carr provided in writing

Question:

Refers to DEST Question No E547_04

You refer in the answer to E547_04 to the “one CSIRO” approach leading to restructures in support services ... resulting in cost savings.

You are now moving to shed positions in North Queensland with the relocation of the Atherton herbarium collection to Canberra. How many jobs will this cost in North Queensland, and what other “one CSIRO” initiatives are underway in CSIRO support services?

Answer:

CSIRO has provided the following response.

Restructures and staff impacts

When the relocation of the Atherton collection occurs, one staff member will be directly affected. This staff member will be offered a position with the collection in Canberra.

Details of other “one CSIRO” initiatives are provided in answer to question E960_04.
