

**Senate Standing Committee on Education Employment and Workplace  
Relations**

**QUESTIONS ON NOTICE  
Additional Estimates 2010-2011**

**Outcome 2 - Schools**

**DEEWR Question No.** EW0875\_11

**Senator Mason asked on 24/02/2011, Hansard page 61.**

**Question**

**NUMBER OF COMPUTERS DELIVERED AND INSTALLED IN SCHOOLS BY  
ELECTORATE**

Senator MASON—By way of background—and I expect you will have to take this on notice, so bear with me—can you provide me, on notice if necessary, with an up-to-date list of how many computers have been approved and how many delivered and installed, broken down by federal electorate? Ms Paul—We certainly could not do it now. I am not sure whether—I imagine we can do it on notice. Ms Bloor—Yes. Senator MASON—If it is a totally ridiculous request, Ms Paul, let the committee know, and I will understand that. Ms Paul—We have taken it on notice. Dr Arthur—We can take it on notice, and since they are going to a particular school, and we can track the school to an electorate, we are able to do that calculation.

**Answer**

Prior to the negotiation of the Digital Education Revolution National Partnership (DER NP), computers were 'approved' under a 'rounds' process which has concluded. Since the commencement of the DER NP in May 2009, funding is being provided on a per capita basis to reach a computer to student ratio of 1 to 1. The total 'approved' number of computers is not relevant under these arrangements.

The attached table provides installation by electorate. These figures may include computers now being progressively rolled out under the DER NP on a per capita basis.

**COMPUTERS INSTALLED BY FEDERAL ELECTORATE**  
(as at 31 March 2011)
