Question

Education expenses

What are the department/agency's guidelines on study?

For this financial year to date, detail all education expenses (i.e. in house courses and tertiary studies) for each portfolio department and agency. Include what type of course, the total cost, cost per participant, the employment classification of each participant, how many participants and the amount of study leave granted to each participant (provide a breakdown for each employment classification). Also include the reason for the study and how it is beneficial for the department/agency.

Answer

\$1 796 915 was spent by the Department on education and training expenses in the 2012–13 financial year to date (as at 31 January 2013).

Of this:

- \$1 594 080 was expended on external courses (including studies assistance \$256 546) that were organised and approved at the business level. As a result, this information is captured at the aggregate level and detailed information on each course is not able to be provided.
- \$202 835 was expended on courses which were managed centrally and therefore able to be itemised. Table 3 provides a detailed breakdown of this expenditure.

Table 1 outlines the number of study leave hours granted, the number of participants who were granted study leave and the classification of study leave participants.

Table 2 outlines the high level reason for the study, how it is beneficial for the Department and the Department's guidelines on study.

Table 3 provides an overview of the expenditure, course type, participant numbers and classification, and cost per participant for the Department.

Details of executive coaching and other leadership training services purchased in the 2012–13 financial year to date (as at 31 January 2013) are detailed in the response to DEEWR Question No. EW0810_13.

Table 1: Amount of study leave granted for each employee

Number of hours of study leave granted	Number of participants granted study leave	Classification
9,652.36 (with pay) 2,068 (without pay)	158	APS, EL, SES

Table 2: Reason for the study, how it is beneficial and the Department's guidelines on study

Studies assistance is designed to provide assistance to eligible employees to undertake an approved course of study to enhance their specific skills, knowledge, capabilities and the department's capacity to achieve its vision and goals. Studies assistance has direct linkages to an employee's Individual Performance and Development (IPAD) Plan.
