Question Number: W125-04

Question:

Senator George Campbell asked on 3 June 2003 at *Hansard* page 203:

Could the Department please identify locations of where sites have shut down and where new sites have opened?

Answer:

The model of delivery between ESC2 and 3 is different. The list of ESC2 and ESC3 site locations is attached. For additional comparison the locations of former CES sites are also included.

Additional new sites will open after the department completes the Fee for Service (FFS) tender arrangements for the *Employment Services Contract 2003-2006*. The department expects to finalise FFS arrangements in late August 2003. The number of sites is not fixed and will reflect job seeker demand over the life of the contract.
