Finally, which Division or Unit has managed this project?

Given that it has continued over a considerable period of time and at such a cost, there must have been progress report to either EMC, the Board or to you.  
Can you please provide copies of all of these for the Committee?

#### Answer:

CSIRO has provided the following response.

The project to integrate and enhance CSIRO's web presence (CSIRO Live) has been managed through the CSIRO IT Services and Corporate Communication group. CSIRO Divisional staff have provided valuable input through various working groups.

Oversight of the project was through a Steering Committee which was chaired by the Deputy Chief Executive. The Steering Committee met on average every 3 to 4 weeks to monitor progress and resolve strategic issues. Regular verbal reports were made to the Executive Team and progress was advised to the CSIRO Board as appropriate through the Deputy Chief Executive's report to the Board. The Deputy Chief Executive's reports to the Board are internal working documents.
