ATCs – for the colleges that have been approved as ‘non-government’ or ‘independent’ schools as part of the contract.

Please provide details of current or estimated general recurrent per capita grants and SES scores over the first four years of operation – based on existing scores or estimated income as incorporated in the colleges’ business plans?

- a) per student
- b) by enrolments
- c) the total grant for each college.

Answer:

General Recurrent Funding

For SES scores and funding details for the Australian Technical College – Port Macquarie see answer to E131_07.

The information requested for other Colleges will not be available until a formal application for recurrent funding has been lodged by the respective Colleges. Following that, student address data may need to be obtained and only then can an SES score be calculated.
