#### Answer:

#### *Funding for Schools*

The information requested above is provided in the attached Excel spreadsheet, with worksheets for Catholic systemic schools, other non-government schools and government schools. Non-government campuses have been included in the spreadsheets immediately following their head campus.

#### Notes:

- 2006 enrolments are based on the 2006 Schools Census conducted in August 2006. The enrolments and actual entitlements included in this response may vary from other published data which does not include retrospective ad-hoc payments or recoveries generally due to enrolment variations made after the end of a calendar year.
- Electorate boundaries are those that as at 2004.
- Specifically, in respect of non-government schools:
  - All figures for 2005 are final. 2006 per capita rates are final. 2006 total funding is final, however, it does not include retrospective ad-hoc payments or recoveries that may occur after the end of the 2006 calendar year.

- In some cases, schools have opened or closed part way through a year and, therefore, their total funding is not based on a full calendar year.
- Enrolment data is provided at a campus level, with the head campus only showing enrolments at that campus. The estimated enrolments are not able to be re-calculated at a campus level for the 2007 and 2008 programme years and so are provided at the head campus level.
- With the exception of rural and remote loading, recurrent funding is determined on a whole of school basis. Consequently, the ERI rates, SES scores, percentages of AGSRC and General Recurrent Grants entitlements for multi campus schools are the same as for the head campus.
