Outcome 4

DEEWR Question No. EW0031_10

Senator Siewert provided in writing.

Question

Employment programs and outcomes:

What are the employment outcomes (fulltime, part time, and none) 3 months after participating in different stages of the Job Network continuum for: Newstart or Youth Allowance (other) recipients with a partial work capacity?

Answer

The Post-Program Monitoring (PPM) survey conducted by the Department of Education, Employment and Workplace Relations (DEEWR) measures job seekers' outcomes three months after participation in assistance.

PPM outcomes for Newstart and Youth Allowance (other) recipients who had a Job Capacity Assessment completed to determine their work capacity are presented in the table below. The results relate to Intensive Support job search training and Intensive Support customised assistance.

Table 1: Post-assistance labour market outcomes year to end June 2009 (Newstart Allowance and Youth Allowance (other) recipients with Partial Work Capacity)¹

Program	Employed Full-Time	Employed Part-Time	Unemployed	Not in the Labour Force
	%	%	%	%
Intensive Support job search training	16.6	19.8	52.4	11.2
Intensive Support customised assistance ²	16.7	33.5	36.9	12.9

1. Job seekers who left Intensive Support job search training placements between 1 April 2008 and 31 March 2009 and outcomes achieved around three months later.
2. Intensive Support customised assistance results include outcomes from both the Intensive Support customised assistance phase1 and Intensive Support customised assistance phase2.
