DEEWR Question No.EW0375_11

Senator Cormann asked on 3/06/2010, Hansard page 54.

Question

TRADE TRAINING CENTRES

Senator CORMANN—It is like for like; an industrial kitchen type TTC set-up could cost more in one area than another depending on local conditions?

Mr De Silva—I would take that on notice.

Answer

The building costs can vary from area to area. The construction industry utilises standard locality allowances which provide a comparison between different locations for constructing the same project.
