Senator Johnston asked on 5 November 2003, EWRE Hansard page 29

Question:

Could you please provide an update on the actions taken in relation to matters previously identified in relation to the Construction Skills Training Centre and the CFMEU.

Answer:

ANTA has provided the following response:

ANTA received a final response from the WA Department of Education and Training on 25 February 2004.

The WA department's advice confirms ANTA's understanding that the skill centre grant of \$996,561 was paid to the WA Builders' Labourers, Painters and Plasterers Union of Workers, now the Construction Forestry, Mining and Energy Union (the union), to establish a skill centre.

ANTA's response to question E932_04 provides the outcomes of ANTA's investigation into the Construction Skills Training Centre and the CFMEU.
