### SENATE LEGISLATION COMMITTEE – QUESTIONS ON NOTICE 2003-2004 SUPPLEMENTARY ESTIMATES HEARING

**Outcome:** CSIRO  
**Output Group:** - CSIRO

#### **DEST Question No. E564\_04**

Senator Carr asked on 5 November 2003.

#### **Question:**

What has happened to the research laboratory that CSIRO has been managing for AMC- is it still operating?

#### **Answer:**

CSIRO has provided the following response.

*Contingent liabilities – AMC - research laboratory*

CSIRO is not aware which laboratory is being referred to here. CSIRO managed the Australian Magnesium Research and Development Project (AMRDP) during its existence (approx 1992-1997). During that time AMRDP contracted research with various research providers of which CSIRO was one. The research projects undertaken by CSIRO on the AM process were conducted as a part of CSIRO's overall research programs in metal production and this work was carried out in a number of CSIRO Divisions.
