If so, has the Department done any analysis of the information collected in tracking the baseline data? Has this information been reported on? If so can a copy of that analysis and/or reports be provided?

Answer:

Analysis of Murdi Paaki Baseline Data

In August 2005, the New South Wales Department of Aboriginal Affairs (DAA) released the *Two Ways Together* Report which provided a regional analysis of baseline data for the state of NSW.

The regional data available for the Murdi Paaki region through the Two Ways Together report has been used by NSW DAA to produce a specific statistical report on the Murdi Paaki region. This report is currently being finalised. It is expected to be released in early 2006.
