Question: How many consultancies have been undertaken or are underway since November 2007? Please identify the name of the consultant, the subject matter of the consultancy, the duration and cost of the contract, and the method of procurement (ie. open tender, direct source, etc).

Please also include total value for all consultancies, including figures for total *spending* on consultancies and also *value of contracts awarded*? Provide total figures since November 2007 and a breakdown on these figures for FY 2008/09 and 2009/10 FYTD.

Question: Is the Department/agency up to date with its reporting requirements on the Government's tenders and contracts website? Are the figures available on that site correct?

Answer:

Yes

Question: How many consultancies are planned for this calendar year? Have these been published in your Annual Procurement Plan (APP) on the AusTender website and if not why

not? In each case please identify the subject matter, duration, projected cost and method of procurement as above, and the name of the consultant if known.
All answers should be current at the time the answer is submitted.

Answer:

The consultancies let up to 30 June 2010 are included in the response to the first question and included in Attachment 3. Consultancies associated with audit work are usually drawn from the ANAO's consultant's panel arrangements and therefore not published in the Annual Procurement Plan. At times consultants are engaged from outside the panel and if known in time, and valued over \$80,000, would be published in the Annual Procurement Plan.

Known consultancies planned for the second half of 2010 include:
